WATER/SEWER CONNECTION REQUIREMENTS

(Attachment to Town of Warner Building Permit for those persons within the Precinct who require a new connection to the water and sewer systems of the Warner Village Water District.)

The following is a summary of the requirements and costs associated with residential connection to the water and sewer systems:

1. Fee for connection to the water system and the sewer system will be \$2000 for each system.
2. Homeowner pays for all construction costs for the hookups to the curbstop for water and to the main for sewer.
3. A meter must be installed in the house sized according to the water pipe entrance. The Precinct will order the meter, the cost of which will be the responsibility of the customer.
4. A backflow preventer, expansion tank and shut off valves must also be installed in the system.
5. The Superintendent must be contacted at least 2 business days before actual street connections are made and for inspection and approval of the water meter, backflow preventer, and expansion tank and valve installation.
6. If there is a change of use of any facility where water and sewer are already established, and additional connection fee may be assessed as determined by the District Commissioners.
7. All fees shall be paid to the District before the Town will issue Occupancy Permits.
8. In accordance with RSA 147:8 all homes and occupied buildings located within one hundred (100) feet of a public sewer are required to connect.

If you have further questions, please contact the Water District at the above number.
