

Warner Energy Committee

Meeting Minutes
Wednesday, April 13, 2016

Present: Sue Hemingway, Darren Blood, Bill Balsam.

- 1.** Solar Array Update: The precinct site work will begin soon with lot clearing. The Sign is back up at proposed site at transfer station.
- 2.** Wood Bank Update: Finishing touches have been put on sign and posted at wood bank. Photos were taken and sent to the Concord Monitor and Intertown Record. Discussion about disposition of firewood that has been on site for a few years and should be used.
- 3.** Fire Station Update: Building committee is planning to reconvene now that site is finalized.
- 4.** Protected River Nomination Status: The energy committee recommends any program that includes the Warner River under the auspices of protecting it should include a future energy perspective and include the capacity of community and land owners to access it's valuable hydro renewable energy resource without undue restrictions. We recommend the selectboard delay approval of this nomination until there is further clarification and information about details, benefits and consequences.
- 5.** Energy Policy: The EC recommends that the selectmen adopt the policy recorded in March EC minutes. Clyde will propose at next selectboard meeting.
