

Parks and Recreation Meeting – Thursday, May 18, 2017

In Attendance: Tim Blagden, Alan Piroso, Apryl Blood, Clyde Carson, Corey Ann Heiligmann

Budget:

The growing season has started on the grass, so we will hold off on a roller and it was voted on and passed to buy a drag for the ball fields instead.

Alan:

Tennis court back board is up, just needs one more coat of paint and the white line.

Riverside was fertilized.

Trash can lids were ordered and will be in next week. Another set of barrels will be put out by the snack shack at Riverside.

Alan & Apryl re-did the softball field, the infield where it needed replacement.

Alan will be at the Beach next week getting that ready to open.

Other:

We will be ordering a few more signs for Riverside. A Handicap, a “Park at your own risk past this point”, and “the fields were fertilized”.

Waiting on an estimate to re-align the front field fence, with that will be a quote for a gate to be able to allow trucks to deliver the infield mix right on the field.

Co-Ed Softball cancelled games last weekend to prevent field destruction. Captains will have the option to make up those games.

Adopt-A-Highway went well, we had 5 volunteers. Next one will be in the fall.

Riverside Rink is having a work day this Saturday from 9am til 12:00.

The Rail Trail is having a work day this Saturday from 12-2.

Fall projects discussed was replacing the sign at the entrance of Riverside Park. The base and frame is rotted and the sign is faded.

We talked about getting an estimate for a shed for storing field maintenance supplies. Apryl will follow up.

The skate park will need to be re-built in the upcoming years, as the ramp internal supports are rotting.

*******Next Meeting Thursday, June 15 @ 6pm at the Library *******
