

## **Parks and Recreation Meeting – Friday - June 15, 2018**

In Attendance: Apryl Blood, Tim Blagden.

### **Riverside Park:**

This meeting was to clarify the vote for Pickle Ball. We took a vote today to start pickle ball here as another source of outdoor exercise. This passed. So we will go ahead and purchase the nets and one set of balls & rackets to go in our job box.

Apryl meet with Advantage Tennis who does resurfacing for courts around the area. The verbal estimate was about \$6000(hard copy coming), to paint and seal the tennis court and basketball court, also adding 4-Square (\$75) and hop scotch. It was explained that the asphalt is starting to wear through the paint, which will in turn crack and cost us much more to repair and repaint. He compared a job in our area, they just had to repair 900' of cracks and it was about \$20,000. That was not including paint. For maintaining the shape of the courts, so we don't have a costly repair moving forward, we voted and passed if we have the funds between the revolving account and our budget we will do this during this fiscal year.
