RE: CORRECTION TO THE SLICE OF LIFE NEWSLETTER, SUMMER 2018 ISSUE

Dear Enrollee:

You recently received the Summer 2018 issue of the Slice of Life newsletter in the mail. In the *Ask HealthTrust* column on page six of that newsletter, there was an incorrect reference to an effective date in one of the responses to a question. **Please see the question and the corrected answer below.**

Ask HealthTrust – Summer 2018 Slice of Life issue

Q: *I have an Access Blue Site of Service plan through HealthTrust and I heard that there are some new enhancements to my benefits for this year. What are they?* - Corrected 9/12/18

A: You are correct! In addition to offering ways to be a smart medical consumer, your Site of Service plan also includes*:

- \$0 copay for allergy injections, radiology services at a Site of Service radiology provider, and outpatient surgery at a Site of Service Ambulatory Surgery Center
- Unlimited chiropractic visits, subject to specialty visit copay (enhanced from 12 visits per year)
- Acupuncture—12 visits per person per plan year, subject to specialty visit copay (previously not covered)
- Physical/Speech/Occupational Therapy – 60 combined visits per person per plan year, subject to specialty visit copay (enhanced from 20 per therapy)

For more details about your plan, talk to the Benefits Administrator at your workplace.

***For Enrollees on a January renewal plan year, these enhancements were effective 1/1/18, with the exception of the \$0 copay for Site of Service radiology services and the Acupuncture benefit, which both become effective 1/1/19.** For Enrollees on a July renewal plan year, all of these enhancements were effective 7/1/18.

We apologize for any inconvenience this error may have caused you. If you have any questions, please contact HealthTrust Enrollee Services at 800.527.5001, enrolleeservices@healthtrustnh.org.

Sincerely,

A handwritten signature in blue ink that reads "Wendy Lee Parker".
