Required Communications to Those Charged with Governance

Professional standards established by the American Institute of Certified Public Accountants (AICPA) require independent auditors to communicate certain matters directly to the Board of Selectmen or an appropriate committee of the Board. This information is intended solely for the use of the Board of Selectmen and management and is not intended to be or should not be used by anyone other than those specified parties. These communications are as follows:

Requirements	Response
The level of responsibility we assume in an audit.	<p>Performing the audit in accordance with auditing standards generally accepted in the United States of America.</p> <p>Expressing an opinion as to the fairness with which the Town's financial statements are presented in all material respects in conformity with accounting principles generally accepted in the United States of America.</p> <p>We considered the internal controls developed by your Town.</p>
Management is responsible for the selection and use of appropriate accounting policies. We discussed our judgements about the quality of accounting principles selected, the consistency in their application and the clarity in presentation including judgements and uncertainties.	These are described in Note 1 of the financial statements.
Changes in existing accounting policies and/or the adoption of new policies.	<p>During the year ended December 31, 2012, the Town adopted and implemented the following Governmental Accounting Standards Board Statements:</p> <p><i>GASB #63 - Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position</i></p> <p><i>GASB #65 - Items Previously Reported as Assets and Liabilities</i></p>
Transactions identified with lack of authoritative guidance or consent and related alternative treatments discussed with management.	Nothing came to our attention.
Transactions were recorded in the proper accounting period.	Nothing came to our attention.
Significant accounting estimates that are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from management's current judgements.	Overall we believe management's estimations process to be appropriate and conservative.
Certain financial statement disclosures are particularly sensitive to financial statement users. Significant disclosures not made are:	GASB #45 - Other Post-Employment Benefits was not adopted during the current year, which resulted in an adverse opinion on the Government-Wide statements (see Note 2 of the financial statements).
