Garden Programs and Possibilities at WCC

Selectman Clyde Carson met with Neil Nevins, Economic Development Advisory Committee (EDAC) member, yesterday morning at the Warner Community Center (WCC) to talk about the proposal to put temporary raised garden beds behind the WCC. This project is organized by the Kearsarge Food Hub as part of the Tray It Forward Program (<https://www.kearsargefoodhub.org/tray-it-forward>). The project has the support of the Warner Agricultural Commission.

The plan is to have 10-12 raised beds located on the left side of the fenced-in area behind the WCC. It looks like there is ample room there, so it should not interfere with the playground area. Amelia Gardner, member of the Warner Agricultural Commission, may have identified manufactured containers for the beds that are 10'x4'. There is no cost to the Town for the materials or plants. Produce from the gardens would go to the Warner Connects Food Pantry which is in the WCC building.

Nevins said that they want to do this in May and Carson suggests that this go on the agenda for the April 26th meeting.
